<Table for Confirmation of Days Students Can Attend School>

Number of days since onset of illness Day	Day of onset	1 Day	2 Day	3 Day	4 Day	5 Day	6 Day	7 Day	8Day
If there is no fever						★	Can attend school		
In case of fever * Depending on the day of fever resolution The day of coming school is different.	◎		●			★			
		◎		●		★			
			◎		●	★			
				◎		● ★			
						◎	★	●	Can attend school
						◎★		●	Can attend school

※ "Day of onset": the day when symptoms such as fever appear  
 "Day of resolution(◎)": the day when the fever goes down  
 「●」: Day 2 after fever is relieved 「★」: Day 5 after onset

Dear Parents and Guardians

## Changeover from the seasonal influenza certificate to the school attendance permission report (Notice)

季節性インフルエンザの出校許可証明書から登校許可報告書への切り替えについて(お知らせ)

Thank you for your understanding and cooperation in school education.

Now, we continue to live in a world where we have to be careful about the spread of the new coronavirus infection and influenza. In addition, medical institutions are taking measures to prepare for a simultaneous epidemic, including the development of medical institutions for treatment and testing.

Therefore, in order to reduce the burden on medical institutions and to reduce the chance of infection among students and their parents, the following changes will be made to the influenza school attendance permission certificates.

### 【Details】

#### 1 Changes

(Previously)

If a student is infected with influenza, he/she may attend school after 5 days have passed since the onset of illness and 2 days have passed since the fever has broken, and submit of a "Certificate of Permission to Attend School" issued by a medical institution.

#### 【From now on】

If a student is infected with influenza, he/she may attend school after 5 days have passed since the onset of illness and 2 days have passed since the fever has broken, and upon receiving instructions from the medical institution, the parent/guardian must submit a completed "Report of Permission to Attend School for Influenza (for parent/guardian to fill in)" Exhibit 1(1).

#### 2 Date of change

December 24, 2020

#### 3 Request to Parents

- (1) If your child is diagnosed with influenza at a medical institution, please receive instructions from your doctor regarding the period of suspension (the period necessary for treatment or to eliminate the fear of infection).
- (2) Parents/guardians should inform the school of the period of suspension instructed by the doctor.
- (3) Please contact the school at least one day before your child's coming of school after the suspension period.

On the day of school, please fill in the necessary information on the "Influenza School Permission Report Form (for parents to fill in)" (Attachment 1(1)) and hand it in to the homeroom teacher.

※If your child is infected with influenza, Article 19 of the School Health and Safety Law stipulates that the period of suspension is "until five days have passed since the onset of illness and two days have passed since the fever has broken".

- (4) In the event that a student is absent due to an illness other than influenza, the student must obtain a "Certificate of Permission to Attend School" from the medical institution as in the past.

※**The "Report of Permission to Attend School for Influenza (to be filled in by parents)" and "Certificate of Permission to Attend School" forms for other than influenza can be downloaded from the school website or picked up at school.**
